

Prepared For:

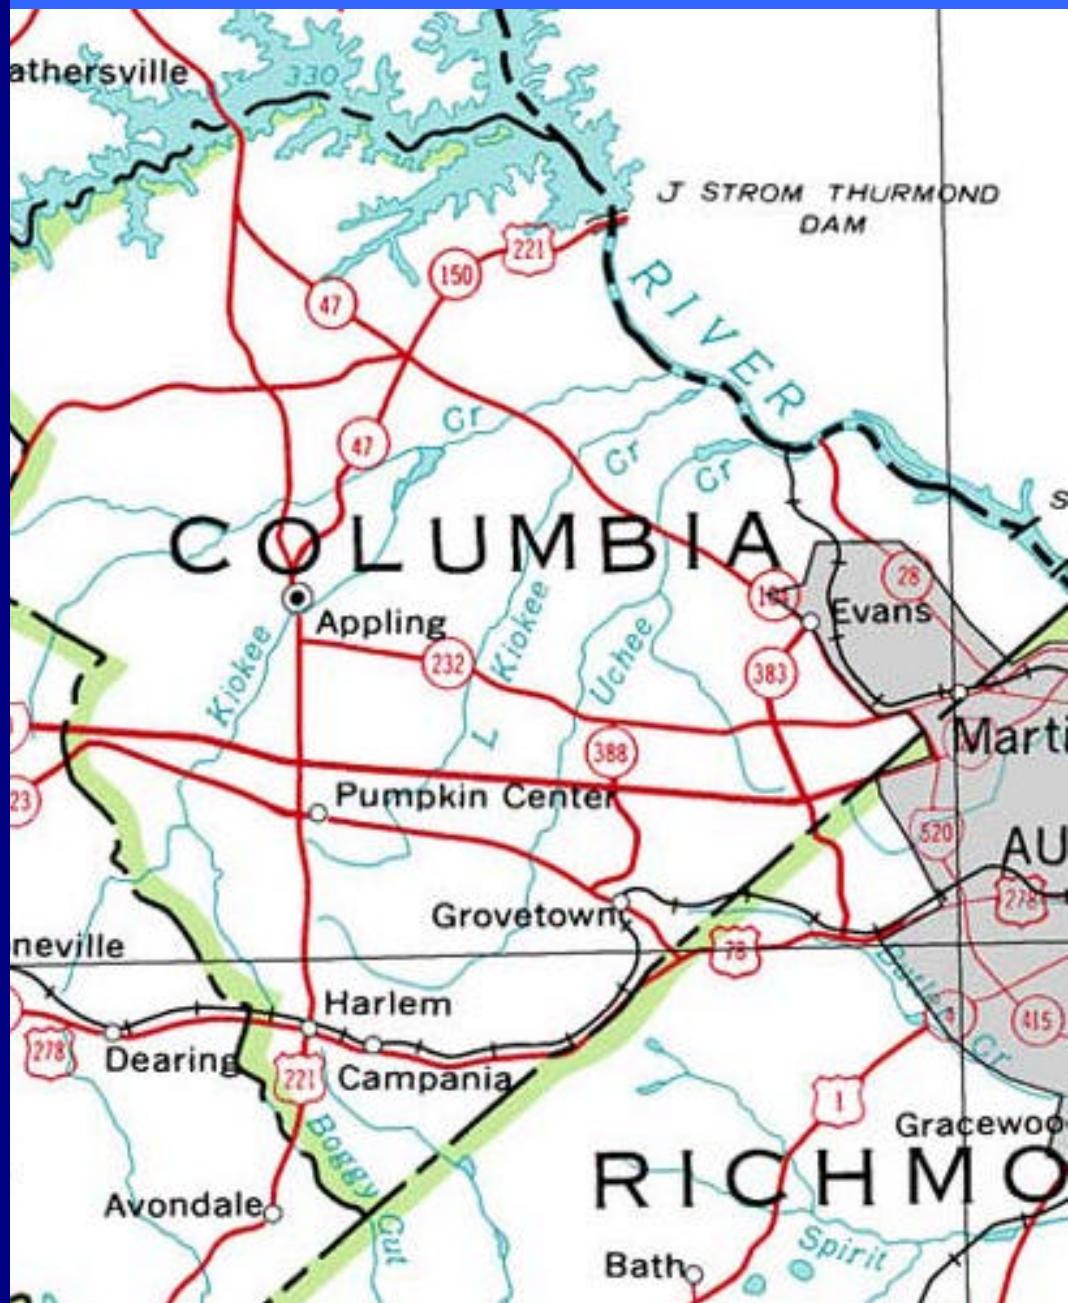

Georgia Department of
Transportation

Columbia County Planning
and Development Services
Department

Columbia County 2025 Long Range Transportation Plan

Prepared By:

In association with
Kisinger Campo & Associates,
Corp.
B&E Jackson Engineers

June 2004

Table of Contents

| | <u>Page</u> |
|--------------------------------------------------------------|-------------|
| 1.0 Introduction | 1 |
| 1.1 Study Purpose | 1 |
| 1.2 Study Area Description..... | 3 |
| 1.3 Study Process | 5 |
| 1.4 Public and Stakeholder Involvement..... | 6 |
| 2.0 Overview of Columbia County..... | 10 |
| 2.1 Historic Growth and Development | 11 |
| 2.2 Future Population | 13 |
| 2.3 Existing Employment | 15 |
| 2.4 Environmental Justice Areas | 16 |
| 2.5 Land Use..... | 21 |
| 3.0 Existing Transportation Conditions..... | 28 |
| 3.1 Existing Highway System | 28 |
| 3.2 Traffic Volumes | 29 |
| 3.3 Crash Data | 29 |
| 3.4 Bridge Inventory | 30 |
| 3.5 Bicycle and Pedestrian Facilities | 33 |
| 3.6 Existing Transit Programs and Services | 35 |
| 3.7 Freight and Rail..... | 35 |
| 3.8 Airport Facilities | 37 |
| 4.0 Planned State and Local Projects..... | 38 |
| 5.0 Development of Travel Demand Model..... | 41 |
| 5.1 Highway Network Setup | 41 |
| 5.2 Trip Generation Module | 43 |
| 5.3 Trip Distribution Model..... | 46 |
| 5.4 Mode Split | 46 |
| 5.5 Traffic Assignment | 47 |
| 6.0 Assessment of Transportation Facilities..... | 48 |
| 6.1 Existing Operating Conditions | 48 |
| 6.2 Future Operating Conditions | 53 |

| | | |
|-------------|----------------------------------------------------------|------------|
| 6.3 | Summary of Safety Assessments | 66 |
| 6.4 | Summary of Bridge Deficiencies | 69 |
| 6.5 | Summary of Pedestrian and Bicycle Facilities..... | 71 |
| 6.6 | Summary of Public Transit Needs | 73 |
| 6.7 | Stakeholder and Public Input..... | 75 |
| 7.0 | Goals, Objectives and Policies..... | 76 |
| 7.1 | Background | 76 |
| 7.2 | Methodology | 76 |
| 7.3 | Consistency with Other Planning Documents..... | 78 |
| 7.4 | Year 2025 Goals, Objectives and Policies (GOPs) | 84 |
| 8.0 | Improvement Development Process | 91 |
| 8.1 | Identification of Potential Improvement Strategies | 91 |
| 8.2 | Strategy Screening..... | 101 |
| 8.3 | Improvements Screening for Deficient Corridors | 116 |
| 9.0 | Improvement Recommendations | 131 |
| 9.1 | Estimated Costs..... | 131 |
| 9.2 | Potential Funding Sources..... | 136 |
| 9.3 | Summary of Recommended Improvements..... | 138 |
| 9.4 | Environmental Justice Considerations | 142 |
| 10.0 | Conclusions | 144 |

List of Figures

| <u>Figure</u> | <u>Page</u> |
|-------------------------------------------------------------------------|--------------------|
| 1.2 Study Area | 4 |
| 1.3 Study Process | 5 |
| 2.1 Percent Population Change (1990 – 2000) by Census Block Group | 12 |
| 2.2 Projected Population Growth..... | 14 |
| 2.4.1 Minority Population Locations by Census Block Group | 18 |
| 2.4.2 Low Income Population Locations by Census Block Group | 19 |
| 2.4.3 Overlay of Minority and Low Income Populations | 20 |
| 2.5.1 Existing Land Use..... | 22 |
| 2.5.2 Future Land Use | 26 |
| 2.5.3 Development Opportunities | 27 |
| 5.1 Highway Network | 42 |
| 5.2 TAZ System and Boundaries | 45 |
| 6.1.1 Existing Peak Hour Deficient Segments | 51 |
| 6.1.2 Existing Daily Deficient Segments | 52 |
| 6.2.1.1 Near Term Peak Hour Deficient Segments | 55 |
| 6.2.1.2 Near Term Daily Deficient Segments..... | 56 |
| 6.2.2.1 Mid Term Peak Hour Deficient Segments..... | 59 |
| 6.2.2.2 Mid Term Daily Deficient Segments..... | 60 |
| 6.2.3.1 Long Term Peak Hour Deficient Segments | 64 |
| 6.2.3.2 Long Term Daily Deficient Segments | 65 |
| 6.3 High Crash Locations | 68 |
| 6.4 Deficient Bridge Locations | 70 |
| 6.5 Bicycle and Pedestrian Improvement Priority Areas | 72 |
| 9.3 Recommended Projects | 141 |
| 9.4 Environmental Justice Evaluation | 143 |

List of Tables

| <u>Table</u> | | <u>Page</u> |
|--------------|---------------------------------------------------------------------|-------------|
| 1.4.2 | Public Workshop Participation | 9 |
| 2.0 | Existing General Demographic Characteristics | 10 |
| 2.2 | Historical Population Profile | 13 |
| 2.3.1 | Existing Industry Jobs..... | 15 |
| 2.3.2 | Existing Work Commute Patterns | 16 |
| 3.1.1 | Roadway Facilities | 28 |
| 3.1.2 | Facility Type Characteristics | 29 |
| 3.3 | Crash Data | 30 |
| 3.4 | Bridge Condition Summary | 31 |
| 3.5 | Bicycle and Pedestrian Improvements | 33 |
| 3.7 | Freight Companies | 36 |
| 4.0 | 2004 – 2006 STIP and GDOT Listing of Projects by County | 39 |
| 6.1 | Summary of Existing Operating Deficiencies | 50 |
| 6.2.1 | Summary of Near Term Operating Deficiencies | 54 |
| 6.2.2 | Summary of Mid Term Operating Deficiencies | 57 |
| 6.2.3 | Summary of Long Term Operating Deficiencies | 62 |
| 6.3 | Intersection Crash Analysis | 66 |
| 6.4 | Deficient Bridge Summary..... | 69 |
| 6.6 | Indicators for Potential Transit Needs | 74 |
| 7.2 | Applying the TEA-21 Planning Factors | 77 |
| 7.4 | LRTP Goals and Objectives Compared to TEA-21 Planning Factors | 90 |
| 8.2.1 | Level One Strategy Screen | 102 |
| 8.2.2 | Level Two Strategy Screen | 104 |
| 8.2.3 | Level Three Strategy Screen | 109 |
| 8.2.4 | Level Four Strategy Screen | 111 |
| 8.2.5 | Level Five Strategy Screen | 115 |
| 8.3.1 | Applicable Strategy Screening for the County | 117 |
| 8.3.2 | Deficient Corridor Screening | 119 |
| 8.3.4.1 | Qualitative Criteria and Scoring | 126 |
| 8.3.4.2 | Quantitative Criteria and Scoring | 128 |
| 8.3.5 | Deficient Corridor Evaluation Criteria | 129 |
| 9.1.1 | State and County Urban Roadway Improvement Unit Costs | 132 |
| 9.1.2 | State and County Rural Roadway Improvement Unit Costs | 133 |

| | | |
|-------|--------------------------------------------------|-----|
| 9.1.3 | State Roadway Maintenance Costs (2002) | 133 |
| 9.1.4 | Unit Costs for Bicycle Facilities (2002) | 134 |
| 9.1.5 | Unit Costs for Pedestrian Facilities (2002)..... | 134 |
| 9.1.6 | Project Cost Estimate..... | 135 |
| 9.3 | Recommended Improvements | 139 |
